Office Action Summary	Application No. 10/796,725	Applicant(s) MCLELLAN ET AL.	
	Examiner Cassandra Davis	Art Unit 3611	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1, 6-10, 13 and 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over DeMatteis et al., U. S. Patent 6,502,371 in view of Turner, U. S. Patent 3,857,139.
3. Dermatitis teaches a bag comprising a front wall (not shown), rear wall (not shown), ventilation slits 22. DeMatteis also teaches printing the bag with logo. (column 2, lines 55-61). Turner teaches a bag with color-coded indicia to indicate the date of week. It would have been obvious to one having ordinary skill in the art to construct the bag taught by DeMatteis with color codes as taught by Turner to provide a means to indicate a particular day of the week.

Turner teaches color-coded day of the week indicia with a closure twist tie 14 for the open top of the bag. (Figure 1). It would have been obvious to one having ordinary skill in the art at the time this invention was made to construct the bag taught by Dermatitis with closure as taught by Turner.

With respect to claim 8-9, since the indicia does not provide an unobvious functional relationship with the bag, the examiner contents that the specific claimed indicia is a design consideration.

With respect to claim 10, any surface on the bag void of indicia is capable of receiving marking information.

4. Claims 16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Huseman in view Wilfong. It would have been obvious to one having ordinary skill in the art the time this invention was made to construct the bag taught by Huseman made of High Molecular Weight-High Density Polyethylene to provide a bag with superior stiffness, cost, and processability. (Column 5, lines 19-24).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cassandra Davis whose telephone number is 703-308-2223. The examiner can normally be reached on Monday-Friday 8:00-4:30.
